3. RISK FACTORS

PROSPECTIVE INVESTORS SHOULD CAREFULLY CONSIDER WITH THEIR OWN PROFESSIONAL ADVISERS THE FOLLOWING RISK FACTORS AND OTHER INVESTMENT CONSIDERATIONS, AS WELL AS ALL THE OTHER INFORMATION CONTAINED IN THE PROSPECTUS, BEFORE MAKING ANY INVESTMENT DECISION WITH RESPECT TO THE ISSUER. SOME OF THESE RISKS ARE SUBJECT TO CONTINGENCIES WHICH MAY OR MAY NOT OCCUR AND NEITHER THE ISSUER NOR THE GUARANTOR IS IN A POSITION TO EXPRESS ANY VIEWS ON THE LIKELIHOOD OF ANY SUCH CONTINGENCIES OCCURRING.

WHILE THE SEQUENCE IN WHICH THE RISKS BELOW ARE LISTED IS INTENDED TO BE INDICATIVE OF THE ORDER OF PRIORITY AND OF THE EXTENT OF THEIR CONSEQUENCES, PROSPECTIVE INVESTORS ARE HEREBY CAUTIONED THAT THE OCCURRENCE OF ANY ONE OR MORE OF THE RISKS SET OUT BELOW COULD HAVE A MATERIAL ADVERSE EFFECT ON THE BDP GROUP’S BUSINESS, RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

IF ANY OF THE RISKS DESCRIBED BELOW WERE TO MATERIALISE, THEY COULD HAVE A SERIOUS EFFECT ON THE ISSUER’S AND, OR GUARANTOR’S FINANCIAL RESULTS AND TRADING PROSPECTS AND ON THE ABILITY OF THE ISSUER TO FULFIL ITS OBLIGATIONS UNDER THE SECURITIES TO BE ISSUED IN TERMS OF THE PROSPECTUS AND OF THE GUARANTOR TO HONOUR ITS OBLIGATIONS UNDER THE GUARANTEE. THE RISKS AND UNCERTAINTIES DISCUSSED BELOW ARE THOSE IDENTIFIED AS SUCH BY THE DIRECTORS OF THE ISSUER AS AT THE DATE OF THE PROSPECTUS, BUT THESE RISKS AND UNCERTAINTIES MAY NOT BE THE ONLY ONES THAT THE ISSUER AND THE GUARANTOR MAY FACE. ADDITIONAL RISKS AND UNCERTAINTIES, INCLUDING THOSE WHICH THE ISSUER’S DIRECTORS ARE NOT CURRENTLY AWARE OF, MAY WELL RESULT IN A MATERIAL IMPACT ON THE FINANCIAL CONDITION AND OPERATIONAL PERFORMANCE OF THE ISSUER AND, OR THE GUARANTOR.

NEITHER THE PROSPECTUS NOR ANY OTHER INFORMATION SUPPLIED HEREIN IN CONNECTION WITH SECURITIES ISSUED BY THE ISSUER:

- (I) IS INTENDED TO PROVIDE THE BASIS OF ANY CREDIT OR OTHER EVALUATION, NOR
- (II) SHOULD BE CONSIDERED AS A RECOMMENDATION BY THE ISSUER OR THE SPONSOR OR AUTHORISED INTERMEDIARIES THAT ANY RECIPIENT OF THIS PROSPECTUS OR ANY OTHER INFORMATION SUPPLIED IN CONNECTION THEREWITH, SHOULD PURCHASE ANY SECURITIES ISSUED BY THE ISSUER.

PROSPECTIVE INVESTORS SHOULD MAKE THEIR OWN INDEPENDENT EVALUATION OF ALL RISK FACTORS AND SHOULD CONSIDER ALL OTHER SECTIONS IN THIS DOCUMENT.

3.1 Forward-looking Statements

The Prospectus and the documents incorporated therein by reference or annexed thereto contain forward-looking statements that include, *inter alia*, statements concerning the Issuer’s and Guarantor’s strategies and plans relating to the attainment of their respective objectives, capital requirements and other statements of expectations, beliefs, future plans and strategies, anticipated developments and other matters that are not historical facts and which may, accordingly, involve predictions of future circumstances.

Prospective investors can generally identify forward-looking statements by the use of terminology such as “may”, “will”, “expect”, “intend”, “plan”, “estimate”, “anticipate”, “believe”, or similar phrases. Such forward-looking statements are inherently subject to a number of risks, uncertainties and assumptions, a few of which are beyond the Issuer’s and Guarantor’s control. Important factors that could cause actual results to differ materially from the expectations of the Issuer’s directors include those risks identified under the heading “Risk Factors” and elsewhere in the Prospectus.

If any of the risks described below were to materialise, they could have a material adverse effect on the Issuer’s and Guarantor’s financial results and trading prospects and the ability of the Issuer to fulfil its Bond Obligations under the securities to be issued in terms of the Prospectus and of the Guarantor to honour its obligations under the Guarantee.

Accordingly, the Issuer and Guarantor caution prospective investors that these forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed or implied by such statements, that such statements do not bind the Issuer and Guarantor with respect to future results and no assurance is given that the projected future results or expectations covered by such forward-looking statements will be achieved.

Prospective investors are advised to read the Prospectus in its entirety and, in particular, all the risk factors set out in the Prospectus for a further discussion of the factors that could affect the Issuer’s and Guarantor’s future performance. In the light of these risks, uncertainties and assumptions, the events described in the forward-looking statements in the Prospectus may not occur. All forward-looking statements contained in the Prospectus are made only as at the date hereof. The Issuer and its Directors expressly disclaim any obligations to update or revise any forward-looking statements contained herein to reflect any change in expectations with regard thereto or any change in events, conditions, or circumstances on which any statement is based.

3.2 Risks Relating to the Issuer and the BDP Group

3.2.1 Issuer’s exposure to and dependence on the BDP Group and its business

The Issuer is the holding parent company of the BDP Group, which was set up primarily as a finance and investment company with one of its purposes being that of raising finance and advancing same to members of the Group. In this respect, the Issuer is dependent on the business prospects of the BDP Group companies, and consequently, the operating results of the BDP Group have a direct effect on the Issuer’s financial position and performance. As such, the risks intrinsic in the business and operations of the BDP Group shall have a direct effect on the financial position of the Issuer.

The business activities of the BDP Group are subject to general market and economic conditions, both locally and overseas. These conditions include, *inter alia*, consumer demand, financial market volatility, inflation, fluctuations in interest rates, exchange rates, direct and indirect taxation, unemployment, credit markets, government spending and other general market and economic conditions. In the event that general market and economic conditions were to experience a downturn, these weakened conditions may have an adverse impact on the financial position and operational performance of the BDP Group’s business activities, potentially having a negative effect on the Issuer’s financial position, cash flows, operational performance and its ability to fulfil its obligations in respect of the repayment of principal and interest under the Bonds punctually when due.

The BDP Group is also subject to the timely completion of its existing and prospective developments (including, but not limited to, the Siggiewi Development) and other budgetary constraints relative to its business. These include factors such as the level of investment across the local property market, inflation and fluctuations in interest rates, exchange rates, property prices and other economic and social factors affecting demand for real estate generally. In the event that general economic conditions and property market conditions experience a downturn which is not contemplated in the Group’s planning during the completion of its prospective real estate development projects, this shall have an adverse impact on the financial condition of the Group and the ability of the Issuer and the Guarantor to meet their respective obligations under the Bonds.

3.2.2 The Issuer’s dependence on payments due by the Guarantor and other BDP Group companies

As a finance company, the majority of the Issuer’s assets consist of loans issued to the Guarantor and investments in the Guarantor and other BDP companies. Consequently, the Company is entirely dependent on the receipt of interest and loan repayments from the Guarantor and other BDP companies, and income derived from dividends receivable from the Guarantor and other BDP Group companies. In this respect, the operating results of the Guarantor and other BDP Group companies have a direct effect on the Company’s financial position.

The interest payments, loan repayments and dividends to be effected by BDP Group companies (including the Guarantor) are subject to certain risks. More specifically, the ability of BDP Group companies to effect payments to the Company will depend on the cash flows and earnings of BDP Group companies, which may be restricted by: (i) changes in applicable laws and regulations; (ii) by the terms of agreements to which they are or may become party, including the indenture governing their existing indebtedness, if any; (iii) risks of delays in completion of its existing and prospective developments (including, but not limited to, the Siggiewi Development); (iv) slowdown

in tempo of property sales; or (v) by other factors beyond the control of the Company. The occurrence of any such factors could, in turn, negatively affect the ability of the Issuer to meet its obligations in connection with the payment of interest on the Bonds and repayment of principal when due.

3.3 Economic and Financial Risks relating to the BDP Group and its Business

3.3.1 Risks relating to rising costs for materials, resources and utilities

The BPD Group operates in the property development industry, which necessitate the availability of certain resources (including human resources), materials and utilities, at cost-effective prices. The BDP Group's principal operational risks relate to its ability to deliver projects within agreed upon project deliverables, including project design specifications, quantity requirements, the involvement of qualified and skilled personnel, adequacy of resources and equipment, technical and industry standards, certification requirements, scheduled programme of works, fitting and finishing specifications and, ultimately, within project budgeted costs and stipulated project deadlines.

From the start of the coronavirus pandemic ("COVID-19") to date, the price of raw materials has been subject to substantial increases caused by a combination of heightened market demand and low availability, ongoing global supply chain challenges, increase in shipping costs, shortages in containers, ships, and human resources, all of which have also been worsened by the recent political and military tensions between Russia and Ukraine, the evolution and political and economic impact of which are characterised by high uncertainty. Accordingly, a surge in prices has been witnessed for, *inter alia*, aluminium, steel, copper, oil, wood, and paper. Should the volatility in prices continue in an upward trajectory over the rest of the year as well as subsequent years, the BDP Group may be negatively affected if these increased costs are not capable of being reflected in increased charges for the delivery of certain products and services of the BDP Group.

The BDP Group may be unable to maintain an adequate stock of the materials and resources it requires, including the appropriate workforce for the BDP Group's development projects resulting in increased costs and project delays. The BDP Group's inability to comply with its obligations could adversely impact the BDP Group's relations with its customers and suppliers, prejudice its goodwill and, or could result in a material adverse effect on the financial position, financial performance, and operational results of the BDP Group.

3.3.2 Risks relating to the economic repercussions of infectious diseases (including COVID-19 pandemic and possible similar future outbreaks)

Different regions in the world have, from time to time, experienced outbreaks of various viruses. The global pandemic of the infectious disease of COVID-19 has led to state of emergencies having been declared in various countries, travel restrictions being imposed, quarantines being established, and various institutions and companies being closed. The ongoing COVID-19 pandemic and any possible future outbreaks of viruses may have a significant adverse effect on the Issuer and the BDP Group.

The BDP Group's revenue generated from its property development activities in Malta may be negatively impacted through a reduction in price of its units held for resale to third parties, as well as the risk of a downward shift in demand, frequency and volume of such revenue-generating property transactions. The BDP Group's business development may also be delayed or abandoned altogether due to directives which may be issued by the relevant public and health authorities.

Beyond the direct economic impact of COVID-19, the pandemic also poses significant challenges to the continuity, efficacy, and proper functioning of the day-to-day operations of the Group. A spread of such disease amongst the employees of the Group, as well as any self-quarantine measures affecting the employees of the Group may negatively impact the ability of the Group's personnel to carry out their work at full-functionality or capacity which could negatively affect the Group's operations.

Further to the above, the Group may be adversely affected by the wider macroeconomic effect of the ongoing COVID-19 pandemic and any possible future outbreaks. While the final effects of the COVID-19 pandemic are, at this stage, difficult to assess, it is possible that it will have substantial negative effect on the economies which impact the Group operations. These effects may also take place in case of any possible future outbreaks. Any negative effect on the economy may decrease incomes of the end-customers of the BDP Group and the demand for the BDP Group's properties for sale. Such effects may also result in the insolvency of the Group's suppliers, contractors and other counter-parties, which could affect the operations of the BDP Group, as well as its financial standing.

3.4 Operational Risks relating to the BDP Group and its Business

3.4.1 Risks associated with the acquisition, development, and sale of property

There are a number of factors that commonly affect the real estate development industry, many of which are beyond the BDP Group's control, and which could adversely affect the economic performance of the BDP Group and the value of its real estate properties under development. Such factors include:

- general industry trends, including the cyclical nature of the real estate market;

- changes in local market conditions, such as an oversupply of similar properties, a reduction in demand for real estate or change of local preferences;
- shortages and, or price increases in raw materials, services or other construction inputs, such as, among others, cement, steel, energy and other utilities, leading to cost overruns;
- insufficiency of resources to complete the projects;
- sales transactions or rental of commercial areas not being made at the prices and, or at the timings envisaged resulting in a liquidity strain or even potential penalties or other financial sanctions or litigation;
- possible structural and environmental problems;
- acts of nature, such as earthquakes and floods, that may damage any of the properties or delay development thereof;
- the inherent risks to health and safety arising from the nature of property development, including the risk of serious injury or even fatality, and the litigations that may arise therefrom; and
- increased competition in the market segment in which the BDP Group operates may lead to an oversupply of residential or commercial properties in such markets, which could lead to a lowering of prices and rental rates and a corresponding reduction in revenue of the BDP Group.

Any of the factors described above could have a material adverse effect on the BDP Group's business, its financial condition and prospects and accordingly on the repayment of the Secured Bonds and interest thereon.

3.4.2 Risks associated with the competitive nature of the property market

The real estate market in Malta is very competitive in nature. An increase in supply and, or a reduction in demand in the property segments in which the BDP Group operates and targets to sell the remaining units in stock and the properties being developed, may cause sales of units forming part of its properties under development to sell at prices which are lower than is being anticipated by the BDP Group or that sales of such units are in fact slower than is being anticipated. If these risks were to materialise, particularly if due to unforeseen circumstances there is a delay in the tempo of sales envisaged by the BDP Group, they could have a material adverse impact on the BDP Group and the Company's ability to repay the Bonds and interest thereon.

3.4.3 Risks associated with property valuations and net realisable value

The valuation referred to in the Prospectus is prepared by independent qualified architects in accordance with the valuation standards published by the Royal Institution of Chartered Surveyors ("RICS"). However, the valuation of property is intrinsically subjective and based on several assumptions at a given point in time. In providing a market value of the respective properties, the architects have made certain assumptions which ultimately may cause the actual values to be materially different from any future values that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends as reality may not match the assumptions. Subsequently, the BDP Group may purchase and, or have purchased property on the basis of inaccurate valuations. Moreover, property valuations are largely dependent on current and, or expected market conditions that may fluctuate from time to time. There can be no assurance that such property valuations and property-related assets will reflect actual market values.

3.4.4 Risks associated with the engagement and, or involvement of service providers and associated counterparty risks

The BDP Group relies upon third party or related service providers such as architects, project managers, building contractors, subcontractors, suppliers, and others for the construction and completion and (where applicable) subsequent operation of its property developments. This gives rise to counter-party risks in those instances where such third parties do not perform in line with the BDP Group's expectations and in accordance with their contractual obligations. If these risks were to materialise, the resulting development cost overruns or delays in completion or loss of revenue could have an adverse impact on the Group's business, and its financial condition, results of operations and prospects.

The Guarantor has engaged Best Deal Properties Limited (a third-party company external to the BDP Group) to market and promote the Siggiewi Development through the Best Deal Properties brand and to provide administrative and other services in terms of a services agreement dated 9 November 2022 (a copy of which is available for inspection as described in section 17 below). As such, the timing and volume of sales of units in the Siggiewi Development depend on the strength of the Best Deal Properties brand and the marketing ability of the above-mentioned third-party company. While every effort is expected to be made to ensure a positive relationship between the Guarantor and Best Deal Properties Limited, there is no assurance that events or circumstances in the future may not adversely affect that relationship or that Best Deal Properties Limited will not enforce its contractual rights under the services agreement in a manner that is adverse to the Guarantor and the BDP Group.

3.4.5 Risks relating to cost overruns and delays in completing the BDP Group's projects

The projects being undertaken by the BDP Group (including, *inter alia*, the Siggiewi Development) are susceptible to certain risks inherent in real estate development, most notably the risk of completion within their scheduled completion date and within the budgeted cost. If either or both of these risks were to materialise they could have a significant impact on the financial condition of the Guarantor and the

Issuer, and the ability of the latter to meet its obligations under the Secured Bonds. In particular, the risks of delays and cost overruns could cause actual sales revenues and costs to differ from those projected and which are affected, amongst others, by factors attributable to counterparties, general market conditions, and competition which are beyond the BDP Group's control.

Delays in the time scheduled for completion of the projects may also cause significant delays in the tempo of the sales forecasted by the BDP Group for units within the said projects affected by such delay, which can have a significant adverse impact on the BDP Group's financial condition and cash flows. Similarly, if the projects were to incur significant cost overruns that were not anticipated, the BDP Group may have difficulties in sourcing the funding required for meeting such cost overruns and therefore may risk not completing the projects, which shall have a material adverse impact on the cash flows generated from sales of units in said project development and a material adverse impact on the financial condition of the specific Guarantor and ultimately the Issuer.

During the term of the Secured Bonds, the BDP Group may acquire and develop further properties in addition to the Siggiewi Development (including, *inter alia*, the Pembroke II Development and the Target Property as defined in sub-section 6.5.3.1 and 6.5.4, respectively). As such, the abovementioned exposure to cost overruns and delays in completing the Siggiewi Development shall also apply to the construction and development of such additional properties.

3.4.6 Risks relating to funding

The funding of the Siggiewi Development is partly dependent on the proceeds from the gradual sale of the units in each of the Ongoing Developments and the Siggiewi Development. In the event that the projected sale of units is not attained or is delayed, the BDP Group may not have sufficient funds to complete the Siggiewi Development, within the time-frames envisaged in this document, and, or to meet its payment obligations in relation to the construction and finishing of the Siggiewi Development punctually when due.

3.4.7 Risks related to the image and reputation of the Best Deal Properties brand

The marketing and sale of the BDP Group's projects are promoted through the Best Deal Properties brand, which is operated by a company external to the BDP Group, namely Best Deal Properties Limited. This latter company is principally involved in selling properties of the BDP Group and other third-party developers and owners through the Best Deal Properties brand. As such, the BDP Group's financial performance is influenced by the image, perception and recognition of the Best Deal Properties brand in Malta.

An event, or series of events, that materially damage/s the reputation of the Best Deal Properties brand could have an adverse effect on the tempo of sales and revenues of the BDP Group. Furthermore, any failure by Best Deal Properties Limited to maintain favourable brand recognition could have a significant negative effect on the BDP Group's business, results of operations and financial condition.

3.5 Legal, Regulatory and Compliance Risks

3.5.1 Risks relating to the regulatory environment in which the Group operates

Current laws and regulations, which may be amended from time to time, impose a liability for the presence of certain materials or substances or the release of certain materials or substances into the air, land or water or the migration of certain materials or substances from a property and property development, including asbestos, and such presence, release or migration could form the basis for liability to third parties for personal injuries or other damages.

In view of these obligations, the BDP Group may become liable for the costs of removal, investigation or remediation of any substances, including hazardous or toxic substances, that may be located on, or in or which may have migrated from, a property owned or occupied by it, which costs may be substantial. The BDP Group may also be required to remove or remediate any such substances or materials that it causes or knowingly permits at any property that it owns or may in future own.

In addition to environmental constraints, the BDP Group's property development operations are subject to extensive regulations, including national and local regulation and administrative requirements and policies which relate to, among other things, planning, developing, land use, local urban regeneration strategy, fire, health and safety, and others. These regulations often provide broad discretion to the relevant authorities and non-compliance may adversely affect the BDP Group's financial condition, its results of operations and its prospects.

3.5.2 Risks associated with the ability to secure planning and construction consents on a timely basis

Obtaining planning permits, from the competent planning and environment authorities, on a timely basis, is of key importance to the BDP Group's business. There can be no certainty that any given application will result in planning consent being granted, or that if granted, will not be on unduly onerous terms, which, if occurring across a number of developments, may materially and adversely affect the BDP Group's business. Additionally, time delays to the expected timescale for the granting of planning consent may result in a reduction in the number of units that are available for sale within a proposed time frame. Furthermore, local and national planning policies are subject to change, which could consequently impact the BDP Group's development strategy.

3.5.3 Risks relating to the failure to implement sustainable and, or environmental, social and governance considerations in the BDH Group's business model

There is a growing expectation for companies to implement sustainability as a feature in their business strategies to reflect changing social norms and practices. With an increased emphasis on environmental, social and governance ("ESG") considerations at global level, the implementation of sustainable factors in the BDP Group's business model is likely to become under increased scrutiny by investors, regulators, and the public at large. ESG considerations for the purposes of the BDP Group's business may include, *inter alia*, energy performance, energy and resource efficiency, waste management, energy and water use, the use of renewables, as well as social and employment considerations of workers and the health and safety thereof. Should the BDP Group fail to operate its business in a sustainable manner, this may have a material adverse effect on the BDP Group's reputation and public image in both sectors, as well as its relationship with clients, suppliers, and other stakeholders. This, in turn, may have a material adverse impact on the BDP Group's business activities, revenues, financial condition, and operations.

3.5.4 Litigation risk

All industries, including the property development industry, are subject to legal claims, with or without merit. Defense and settlement costs can be substantial, even with respect to claims that have no merit. Due to the inherent uncertainty of litigation and dispute resolution processes, there can be no assurance that the resolution of any legal proceeding or dispute will not have a material adverse effect on the BDP Group's future cash flow, results of operations or financial condition.

6.3 History and Development of the BDP Group

The partnership between the founding shareholders of the BDP Group, Christopher Attard, Erskine Vella, John Buttigieg and Pierre Bartolo, commenced in 2016 through the incorporation of Elite Developments Limited, with the principal scope of acquiring the sites over which two residential apartment blocks – Crystal Court and Blue Moon Court, both located in Marsascala – have been constructed. In 2018, a second company – PJCE Properties Limited – was established to acquire and develop Garnet Court, in Mqabba.

Christopher Attard has over 30 years' experience in the property development business, whilst Erskine Vella worked as an estate agent for *circa* 14 years before setting up the Best Deal Properties brand with Mr Attard in 2011 to market property in Malta (the establishment and operation of the said brand is unrelated to the BDP Group). Their business development strategy is to engage in property developments through own companies or entities established with third party investors. In all cases, projects involving Mr Attard and Mr Vella are marketed through the Best Deal Properties brand, which is particularly known for its offerings to first-time and mid-tier property buyers in the south of Malta. Elite Developments Limited and PJCE Properties Limited were set up on the same basis of operations. John Buttigieg and Pierre Bartolo were mainly involved in the catering industry, through their stakes in Buttigieg Holdings Ltd, before venturing into property development in 2016. Buttigieg Holdings Ltd was fully acquired in same year by International Hotel Investments p.l.c. (a public company listed on the Malta Stock Exchange). On 9 November 2018, John Buttigieg transferred his equity holding in Elite Developments Limited and PJCE Properties Limited to RCJ Investments Limited (C 88743), a company owned by his three children.

For the purpose of a re-organisation of the BDP Group, the Issuer was established on 23 October 2018, as a public limited liability company registered under the Act, and each existing shareholder subscribed to 15,000 fully paid-up ordinary shares of €1 each (being €60,000 in aggregate). On 13 November 2018, the Company became the parent company of Elite Developments Limited and PJCE Properties Limited through a share-for-share exchange. Pursuant to the above, the issued share capital of the Company was increased to €250,000, divided into 250,000 ordinary shares of a nominal value of €1 each, fully paid up.

Furthermore, through two assignment of debt agreements both dated 31 October 2018, shareholders' loans amounting to €2.3 million (in aggregate) were transferred from Elite Developments Limited and PJCE Properties Limited to the Company. The said shareholders' loans have no fixed redemption date, do not carry any right to payment of interest and are ranked as subordinated debt.

On 31 October 2018, Best Deal Developments Limited was incorporated as a wholly-owned subsidiary of the Issuer. In December 2018, the Company issued 4.25% secured bonds due 2024 pursuant to the 2018 Prospectus, of a nominal value of €100 per bond and of an aggregate nominal value of €16,000,000, and having ISIN MT0002121201 (the "Existing Bonds"). The balance of Existing Bonds as at 1 August 2022 amounted to €9,183,200. The 2018 Bond Issue was issued by the Company for the purposes of acquiring three sites in Zabbar, Mellieha and Pembroke and developing thereon the Zabbar Development, the Mellieha Development and the Pembroke I Development, respectively.

The Existing Bonds are guaranteed by Best Deal Developments Limited and secured by the following security rights in favour of the Security Trustee for the benefit of the holders of the Existing Bonds (the "Existing Bonds Security Interest"):

- (i) the first ranking general hypothec for the full nominal value of the Existing Bonds and interests thereon over all the present and future property of the Company and Best Deal Developments Limited;
- (ii) the first ranking special hypothec for the full nominal value of the Existing Bonds and interests thereon over the land on which each of the Pembroke I Development, the Mellieha Development and the Zabbar Development has been / is being developed together with all and any constructions to be developed thereon;
- (iii) the special privilege in accordance with the provisions of article 2010(c) of the Civil Code (Chapter 16 of the laws of Malta) for the amounts of: (a) *circa* €0.8 million (or such other amount according to law) over the site of the Pembroke I Development; (b) *circa* €3.2 million (or such other amount according to law) over the site of the Mellieha Development; and (c) *circa* €7.6 million (or such other amount according to law) over the site of the Zabbar Development; and
- (iv) the joint and several guarantee, dated 3 December 2018 granted by Best Deal Developments Limited as security for the punctual performance of the Issuer's payment obligations under the 2018 Bond Issue, subject to the terms and conditions contained in the security trust deed signed between the Issuer, Best Deal Developments Limited and the Security Trustee, dated 03 December 2018.

On 29 June 2019, the Issuer implemented a 10 for 1 share split, and accordingly the issued share capital of the Company amounted to 2,500,000 ordinary shares of €0.10 each.

On 30 October 2019, the Group raised further equity from a new investor – C Developments Limited, which acquired 20% of the Company through an offer for subscription of 625,000 new ordinary shares of a nominal value of €0.10 each at a share issue price of €1.60 (the “New Shares”), in terms of a Company Admission Document issued by the Company and dated 21 August 2019. The New Shares, together with the 2,500,000 existing ordinary shares of the Company were admitted to Prospects MTF on 22 August 2019. Moreover, C Developments Limited advanced to the Company an amount of €1,200,000 (the “New Shareholder’s Loan”) to further assist the BDP Group with ongoing working capital requirements.

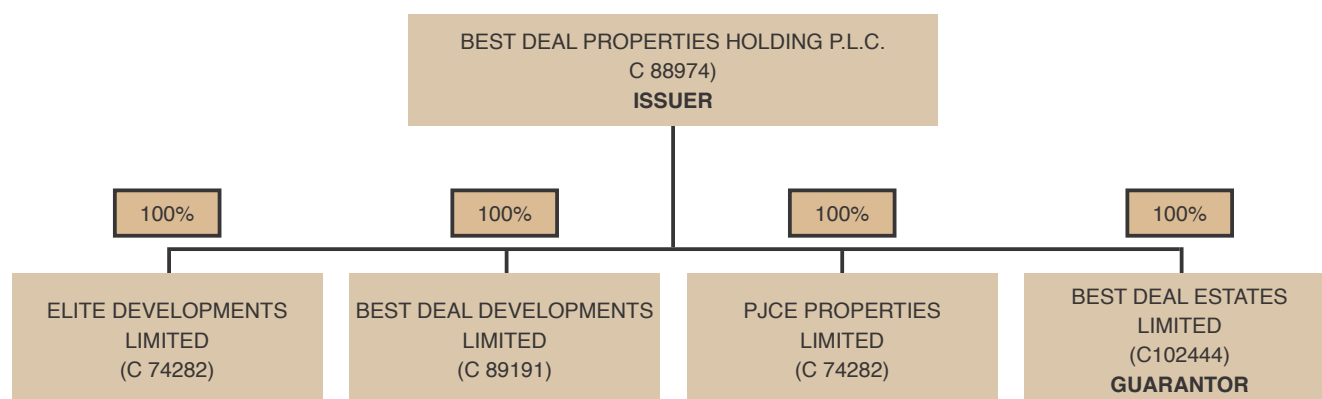

Pursuant to the issue and allotment of the New Shares in favour of C Developments Limited and the New Shareholder’s Loan, the BDP Group’s capital was strengthened through a cash injection of €2.2 million which enabled the Group to accelerate the development of the Zabbar Development, the Mellieha Development and the Pembroke I Development.

On 31 May 2022, the Guarantor was set up as a wholly-owned subsidiary of the Company to acquire the Siggiewi Site and develop the Siggiewi Development.

Following the completion of the respective deeds of acquisition of the Siggiewi Site (as detailed in section 6.5.3 below), which are expected to take place following the Bond Issue, the Company will have the indirect legal and beneficial interest and control over the Siggiewi Development.

6.4 Organisational Structure

The diagram below indicates the structure of the BDP Group as at the date of this Prospectus:

The above subsidiary companies of the Issuer are property companies and have their registered office at 63, J.L. Buildings, Office 5, Luqa Road, Paola PLA 9045, Malta.

PJCE Properties Limited is responsible for the development of Garnet Court, in Mqabba. As at the date of this Prospectus, a few units remain in stock which are projected to be sold by the end of 2022.

Elite Developments Limited was involved in the development of Crystal Court and Blue Moon Court, both located in Marsascala and both of which are now fully sold.

Best Deal Developments Limited is engaged in the Ongoing Developments. Information regarding the Ongoing Developments is provided in sub-section 6.5.2 below. Best Deal Developments Limited will also be engaged in the construction and development of the Pembroke II Development (as defined in sub-section 6.5.3 below), which is expected to commence in the second quarter of 2023. Information regarding the Pembroke II Development is set out in sub-section 6.5.3 below.

As indicated in section 6.2 above, the Guarantor’s principal objective is to purchase properties for the development of residential units. In the immediate term, the Guarantor shall acquire the Siggiewi Site, and to construct and develop the Siggiewi Development, as set out in more detail in section 6.5.3.2 below.

6.5 Overview of the Group’s Business and Investments

The Issuer does not undertake any trading activities itself and its sole purpose is that of acting as the finance arm of the Group, principally by raising finance and advancing same to members of the Group. Accordingly, the Issuer is economically dependent principally on the operational results, financial condition and performance of its borrower Group companies.

The principal activity of the Group is the acquisition and development of real estate.

As described in section 6.3 above, the BDP Group initiated operations in 2016 through the acquisition of a site in Marsascala and the development of Crystal Court project. The success of this project encouraged the Group to embark on further projects, many of which have been completed or which are in the process of being completed.

The BDP Group places strong focus on sustainability in the development of its projects. The principal objective of its approach to sustainable property development is ultimately to minimise the negative impact of development on the environment and to maximise the sustainable use of resources. By implementing energy efficient solutions in the construction and finishing of its properties, particularly through the use of efficient building techniques and durable materials and systems, the aim of the BDP Group is to extend the durability and functionality of its properties-for-sale.

A brief overview of each of the projects which have been completed by the BDP Group and those in the course of development are provided hereunder, in sub-sections 6.5.1 and 6.5.2, respectively. An overview of the two new projects that are expected to be carried out during the course of 2022 and 2023, namely the Pembroke II Development and the Siggiewi Development, is provided in sub-section 6.5.3. Furthermore, an overview of the prospective developments of the BDP Group is provided in sub-section 6.5.4.

Subject to the successful issue and allocation of the Secured Bonds, the Issuer will enter into the Loan Agreement, by virtue of which part of the proceeds of the Bond Issue will be made available to the Guarantor for the acquisition of the relevant portions comprising the Siggiewi Site, as set out in more detail in sub-section 5.1 of the Securities Note. The final deeds of sale pertaining to the relevant portions comprising the Siggiewi Site are expected to take place following receipt of the proceeds from the Bond Issue.

Planning Permits

The Siggiewi Site is located within a rationalisation scheme and, accordingly, the Assignors were required (as per the terms of the promise of sale pertaining to Siggiewi Site Portion 1) to file a PC application in order to designate the site as residential with a height limitation of three floors plus an underlying semi-basement. The PC application (PC/99/18) was approved by the Planning Authority on 17 February 2022.

Following the approval of the PC Application, the Assignors proceeded to file three separate Planning Authority applications (PA/2122/22, PA/2536/22 and PA/2935/22, respectively) for the development of the Siggiewi Site into the Siggiewi Development, which were approved by the Planning Authority on 13 October 2022, 26 October 2022 and 01 November 2022, respectively.

Construction and Development

The Siggiewi Development comprises 20 maisonettes, 60 apartments and 15 penthouses. The sizes vary, and include one, two and three bedroomed units. The development also includes 155 lock-up garages, two stores and one substation organised on two basement levels (levels -1 and -2).

Development is set to commence in 2023 and is expected to be completed by end of 2026 at an estimated cost of *circa* €16.6 million. The total estimated revenue from the Siggiewi Development is estimated at €37,000,000.

As with the completed and ongoing projects, the Siggiewi Development will be marketed under the Best Deal Properties brand, and will thus have exposure on the brand's website – www.bestdealmalta.com and benefit from other media coverage.

The Directors have acquired considerable knowledge in developing and marketing similar projects and accordingly, are confident that the actual outcome of the Siggiewi Development will at least be in line with expectations. The Directors believe that, given the location of the Siggiewi Development, the layout of the units and the proposed level and standard of finishes, the Siggiewi Development will be a competitive offering for prospective buyers wishing to acquire a residential property. The target buyers are principally first-time to mid-tier Maltese customers, and may also appeal to investors wishing to maximise rental income potential.

Further information on the Siggiewi Development is included in the Property Valuation Report.

6.5.4 Future developments

In furtherance of its business model geared towards steady cash flow generation through the acquisition and development of real estate, the Issuer intends to further grow the Best Deal brand and enhance the reputation it has garnered in the local market as a leading property developer.

In pursuit of this objective, the wholly owned subsidiary of the Issuer, Best Deal Developments Limited, has entered into a promise of sale agreement dated 03 October 2022 for the acquisition of the portion of land located in Mellieha, which extends over and into one half of the fronting streets called Triq it-Tunnara and Triq id-Denci, and slightly less than one half on Triq it-Tumbrell, free and unencumbered from the obligation of payment of or conditions related to groundrent and, or emphyteutical or other burdens, free from third party servitudes, with its airspace and subterranean levels and with guaranteed vacant possession (the “**Target Property**”), for the price of €7.8 million. This is expected to be financed through additional borrowings expected to take place in 2023.

The final deed of sale and purchase is conditional, *inter alia*, on Best Deal Developments Limited managing to obtain, at its expense, by no later than seventeen (17) months from the date of the abovementioned promise of sale, a fully executable development permit to be applied for by Best Deal Developments Limited. The promise of sale shall remain valid and effective up to 03 April 2024.

The acquisition is intended to be developed into a residential development comprising 72 apartments spanning over nine floors, one large penthouse referred to as 'Sky Villa' and 108 garages. Pursuant to the terms of the said promise of sale, Best Deal Developments Limited is vested with a right of substitution and, or assignment in favour of any third-party company/ies in which the ultimate beneficial owners of Best Deal Developments Limited have a direct or indirect shareholding. The Board of Directors of the Issuer understands that such right of assignment is due to be exercised with a view to the Guarantor appearing on the final deed of sale for the acquisition of the Target Property. In addition to the above, the Guarantor may seek to identify additional properties for acquisition and subsequent development.

6.6 Collateral granted in favour of the Security Trustee

Security for the fulfilment of the Issuer's Bond Obligations in terms of the Bond Issue is to be granted in favour of the Security Trustee for the benefit of Bondholders, by way, *inter alia*, of the granting of the Collateral as described in further detail in sub-section 5.7 of the Securities Note. The security shall be constituted in favour of the Security Trustee for the benefit of all Bondholders from time to time registered in the Central Securities Depository of the Malta Stock Exchange. The Collateral will be vested in the Security Trustee for the benefit of the Bondholders in proportion to their respective holding of Secured Bonds.

7. FINANCING AND SOLVENCY

There are no recent events particular to the Issuer or the Guarantor which are to a material extent relevant to an evaluation of their respective solvency.

No credit ratings have been assigned to the Issuer or the Guarantor at the request or cooperation of the said Issuer or (as the case may be) the Guarantor in the rating process.

The Directors are not aware of any material change in the Issuer's borrowing and funding structure since the end of their latest financial year ending 31 December 2021 and of any material change in the Guarantor's borrowing and funding structure since the date of its incorporation. The Directors expect the Issuer's and the Guarantor's working capital and funding requirements to be met by a combination of the following sources of finance: (i) retained earnings and cash flow generated by the Group's operations; (ii) external bank credit and loan facilities; and (iii) the net proceeds from the Secured Bonds.

8. TREND INFORMATION

The Directors are of the view that the Issuer, Guarantor and the BDP Group shall, generally, be subject to the normal business risks associated with the property market in Malta and, barring unforeseen circumstances, does not anticipate any likely material adverse effect on the Issuer's, the Guarantor's and the BDP Group's prospects, at least up to the end of 2023.

In 2021, the Maltese economy rebounded strongly by 10.4%, on account of improved business and consumer sentiment and growth in investment and services exports. In 2022, real GDP growth is forecast to reach 4.9%, which is higher than projected in spring (4.2%), given the expected stronger gains in the services sector, although tampered by the negative impacts of Russia's invasion of Ukraine. Growth in 2022 is expected to be driven by domestic consumption and net exports. Based on air passenger data projections by Eurocontrol¹, the export of tourism services is on course to a very rapid rebound in 2022 with full recovery expected by 2023, contributing to growth in both years. In 2023, real GDP is forecast to increase at a slower pace, but still by a robust 3.8%, affected by a general economic slowdown of its main trading partners, but partially compensated by continued growth of tourism and other services exports.

In June 2022, Malta was removed from the list of jurisdictions under increased monitoring by the Financial Action Task Force (the international standard setting body on anti-money laundering/countering the financing of terrorism). This positive outcome removed the related limited downside risks flagged in previous forecast rounds.

Inflation in 2021 increased only moderately by 0.7% as energy prices were kept unchanged by state interventions and hedging contracts for gas supply. While the authorities have committed to continue limiting energy price growth in 2022, the strong increase in inflation in the first two quarters of 2022 indicates that rising international energy and commodity prices are affecting Malta's prices indirectly. Inflation in 2022 is set to rise to 5.6%. The increases in food, transport and imported goods prices, and a continued recovery in the tourism and hospitality services are set to drive up price pressures also in 2023, with inflation remaining elevated at 3.3%.²

¹ The European Organisation for the Safety of Air Navigation, commonly known as Eurocontrol, is an international organisation working to achieve safe and seamless air traffic management across Europe.

² Economic Forecast – Summer 2022 (European Commission Institutional Paper 183 July '22).

The NSO's Property Price Index (PPI) – which is based on actual transactions involving apartments, maisonettes and terraced houses – continued to increase in annual terms. However, the annual rate of change slowed down to 4.5% in the last quarter of 2021 from 5.9% in the third quarter of 2021. Moreover, house price inflation in Malta remained below that in the euro area where prices increased at an annual rate of 9.4%.

Notwithstanding the slower growth recorded in the fourth quarter of 2021, the annual average house price inflation remains close to that recorded in the last four years before the pandemic. At the same time, residential property prices seem to have returned to a growth trend following the slowdown in growth during the initial stages of the pandemic. In Q1 2022 and Q2 2022, the annual percentage rate of change increased from 4.5% in Q4 2021 to 6.8% and 7.7%, respectively.

Residential property prices are being supported by numerous factors, including the low-interest rate environment and a number of Government schemes, which include the temporary measures launched following the pandemic. Such schemes reflect, for example, lower property tax rate and stamp duty to eligible transfers of immovable property. In particular, in 2020, the property tax and stamp duty on the first €400,000 of the value of the transfer were reduced to 5.0% and 1.5% respectively. Moreover, Budget 2021 and Budget 2022 extended or introduced more incentives supporting the property market that were in place before the pandemic.¹

The Group's long-term strategy is to focus on acquiring suitable sites for the development of residential units.

The response from investors in regard to the projects of the BDP Group has shown that there is active demand for real estate in Malta, which is still supporting a steady increase in prices notwithstanding the rise in the number of developments undertaken in Malta in the last few years and others which are due to commence in the near term, over and above the uncertainties that continue to persist as a consequence of the COVID-19 pandemic and inflationary concerns.

As such, the Directors are cautiously optimistic on the health of the Maltese property market, which opinion is based on the assumption that the general economy will continue to gradually return to pre-COVID-19 levels within a short period of time without adversely impacting business confidence, primary industries such as hospitality and disposable incomes.

There has been no material adverse change in the prospects of the Issuer and the BDP Group since 31 December 2021 (being the date of its last published audited financial statements). Furthermore, there has been no significant change in the financial performance of the Issuer and the BDP Group since 30 June 2022 (being the date of the last financial period for which financial information has been published) to the date of the Prospectus.

The independent, non-executive Directors of the Issuer have the task of ensuring that any potential conflicts of interest that may arise at any moment pursuant to these different roles held by the above-mentioned directors are handled in the best interest of the Issuer and according to law. The independent, non-executive Directors will also be tasked to ensure that transactions vetted by the Board of Directors are determined on an arms-length basis. As regards related party transactions generally, the Audit Committee operates within the remit of the applicable terms of Chapter 5 of the Capital Markets Rules regulating the role of the audit committee with respect to related party transactions.

The said five Executive Directors are also the ultimate beneficial shareholders of the Issuer.

In providing said working capital statement, the Issuer confirms that the proceeds of the Bond Issue have been included in the calculation of its working capital.

11. BOARD PRACTICES

11.1 Audit Committee

The Audit Committee's primary objective is to assist the Board of the Issuer and the Guarantor in fulfilling its oversight responsibilities over the financial reporting processes, financial policies and internal control structure. The Audit Committee oversees the conduct of the external audit and acts to facilitate communication between the Board, management and the external auditors. The internal and external auditors are invited to attend the Audit Committee meetings. The Audit Committee reports directly to the Board of Directors. The Audit Committee, which meets at least once every three months, is a committee of the Board and is directly responsible and accountable to the Board. The Board reserves the right to change the Audit Committee's terms of reference from time to time.

The terms of reference of the Audit Committee include, *inter alia*, its support to the Board of the Issuer in its responsibilities in dealing with issues of risk management, control and governance and associated assurance. The Board has set formal terms that establish its composition, role and function, the parameters of its remit as well as the basis for the processes that it is required to comply with.

Briefly, the Audit Committee is expected to deal with and advise the Board on: (a) its monitoring responsibility over the financial reporting processes, financial policies and internal control structures; (b) maintaining communications on such matters between the Board, management and the independent auditors; (c) facilitating the independence of the external audit process and addressing issues arising from the audit process; and (d) preserving the Issuer's assets by understanding the Issuer's risk environment and determining how to deal with those risks.

In addition, the Audit Committee also has the role and function of scrutinising and evaluating any proposed transaction to be entered into by the Issuer or Guarantor and a related party, to ensure that the execution of any such transaction is at arm's length and on a commercial basis and ultimately in the best interests of the Issuer or Guarantor, as the case may be.

The Audit Committee is made up entirely of non-executive Directors, two of whom are independent of the Issuer, and who are appointed for a period of three years. Mario P. Galea, an independent, non-executive Director of the Issuer, acts as Chairman, whilst James Bullock and Marlene Seychell act as members. In compliance with the Capital Markets Rules, Mario P. Galea is considered to be the member competent in accounting and, or auditing matters. The Issuer considers that the members of the Audit Committee have the necessary experience, independence and standing to hold office as members thereof.

11.2 Compliance with Corporate Governance Requirements

As a consequence of the 2018 Bond Issue and the forthcoming Bond Issue and in accordance with the terms of the Capital Markets Rules, the Issuer is required to endeavour to adopt and comply with the provisions of the Code of Principles of Good Corporate Governance forming part of the Capital Markets Rules (the "Code").

The Issuer declares its full support of the Code and undertakes to continue to comply with the Code to the extent that this is considered complementary to the size, nature and operations of the Issuer. The Issuer supports the Code and believes that its application results in positive effects accruing to the Issuer.

As at the date of the Prospectus, the Board considers the Issuer to be in compliance with the Code, save for the following exceptions:

i. Principle 2 "Chairman and Chief Executive Officer"

The Company has no employees and neither a Chief Executive Officer.

The Board is responsible for the management of the Company. The Chairman exercises independent judgement and is responsible to lead the Board and set its agenda, whilst also ensuring that the directors receive precise, timely and objective information so that they can take sound decisions and effectively monitor the performance of the Company. The Chairman is also responsible for ensuring effective communication with the shareholders and encouraging active engagement by all members of the Board for discussion of complex or contentious issues.

ii. Principle 7 "Evaluation of the Board's Performance"

Under the present circumstances, the Board does not consider it necessary to appoint a committee to carry out a performance evaluation of its role, as the Board's performance is evaluated on an ongoing basis by, and is subject to the constant scrutiny of, the Board itself, the Company's shareholders, the market and the rules by which the Issuer is regulated as a listed company.

iii. Principle 8 "Committees"

- The Issuer does not have a Remuneration Committee as recommended in Principle 8; and
- The Issuer does not have a Nomination Committee as recommended in Principle 8.

The Board considers that the size and operations of the Issuer do not warrant the setting up of remuneration and nomination committees. In particular, the Board itself carries out the functions of the remuneration committee. The Board has established a fixed remuneration for directors which is not performance related and this has been approved by the shareholders.

Furthermore, the Issuer does not believe it is necessary to establish a nomination committee as appointments to the Board of Directors are determined by the shareholders of the Company in accordance with the Memorandum and Articles of Association of the Issuer. The Issuer considers that the current members of the Board provide the required level of skill, knowledge and experience expected in terms of the Code.

The Guarantor is a private company and accordingly is not subject to the provisions of the Capital Markets Rules nor to endeavour to adhere to the provisions of the Code. Whilst the Guarantor does not have its own audit committee, it has authorised and tasked the Audit Committee of the Issuer to monitor its operations.

12 LITIGATION

There have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) during the period covering 12 months prior to the date of this Registration Document which may have, or have had in the recent past significant effects on the financial position or profitability of the Issuer, the Guarantor and, or the BDP Group, taken as a whole.
